

Yang Ye

Pittsburgh, PA | YAY140@pitt.edu | (412) 626-0819

Education

University of Pittsburgh, B.S. in Computer Science Aug 2024 – May 2026

- GPA: 4.0/4.0
- **Selected Coursework:** Data Structure, Math Foundations of Machine Learning, Introduction to Deep Learning, Software Quality Assurance, Database Management Systems, Programming Languages for Web Applications

Sichuan University, B.S. in Computer Science Sep 2022 – May 2024

- GPA: 3.88/4.0
- **Selected Coursework:** Algorithm Implementation, Data Analysis Applied Statistical Methods, Computation in Information Science, Discrete Structures for Computer Science, Physics for Science and Engineering

Research Experience

Modeling of Lung Respiratory Movement Model Based on 4DCT Images Oct 2023 - Jun 2024

Advised by Prof. Kunpeng Wang, Sichuan University – Pittsburgh Institute

- Transformed 4DCT image data into processable point cloud numerical formats for advanced analysis and landmark point extraction. Annotated CT images by precisely identifying and labeling landmark points within the datasets.
- Explored theoretical aspects of affine transformations to accurately determine the positional coordinates of identical point clouds at different time points.
- Collaborated in the development of a comprehensive respiratory motion model of the lungs, enhancing the understanding of pulmonary dynamics.

Flexible Exoskeleton Performance Evaluation Mar 2023- Dec 2023

Advised by Prof. Fashu Xu, Sichuan University – Pittsburgh Institute

- Selected for SCUPI's Research Honor Program to research flexible exoskeletal structures.
- Conducted comprehensive literature reviews to understand the architecture and mechanics of flexible exoskeletons in motion.
- Analyzed and compared various methodologies for assessing and testing the efficacy of flexible exoskeletal systems.

Work Experience

Media Data Analyst Intern, Shenzhen Nanyang Culture Media Jul 2022 – Aug 2022

Shenzhen, China

- Conducted customer data analysis using SQL to extract actionable insights for supporting marketing and business strategies.
- Researched and analyzed statistical data to support a documentary on urban development and natural resource management in Pingshan District, Shenzhen.

Honors and Awards

-
- | | |
|--|----------------|
| • Sichuan University Undergraduate First Class Scholarship | Oct 2023, 2024 |
| • Sichuan University Outstanding Student Leader | Oct 2023, 2024 |
| • Sichuan University - Pittsburgh Institute Dean's List | Oct 2023 |
| • Sichuan University - Pittsburgh Institute Student Award | Oct 2023 |

Skills

Python, Java, C, MATLAB, R, SQL, Word, Excel, Powerpoint
